JERSEY CITY. WHY IS THE WATER SUPPLY SHORT!

Mrs. Mary Bannon, of No. 440 Second st., Jersey City, is employed as a car cleaner at the Pennsylvania yards. She has a boy six and a girl two years old. It is her custom to lock them in the rooms while at sterday the stove became overheated and et fire to the woodwork. The screams of the children alarmed the other tenants in the house, and the children were rescued, but not until they were severely burned about the face and hands, the flames having communicated with the bed in which the children were asleep. The fire could not be put out until a chemical engine was summoned, because the firemen could not get to work. There has been a shortage in the water supply for several days, and it is believed that one of the mains across the meadow is frozen. though no evidence has yet been found to sustain the ort. The firemen yesterday found three hydrants vicinity of the fire frozen, and they were bliged to thaw them out before water could be ob-

dering the advisability of raising the rates throughout unless immediate relief is afforded. They admit the shortage of water, but they say it is not on account of an impediment in the mains or because sither of the meadow pipes are frozen. They openly charge that the water supply is being tampered with in the interest of a "job" to construct a new main across the meadows. The estimated cost of the main across the meadows. leaked out yesterday that the annual election of the Janes Methodist Episcopal Church, in Summit ave., bn Monday-night, was held under police supervision. There are two factions in the congregation, one led Loundes, and the other by the Rev. W. H. ell, the paster. Mr. Loundes has always been dominant spirit in the affairs of the church, and Russell was appointed against his wish. When time came for the election Mr. Loundes refused necessary notice, and the pastor finally took case in hand himself. When the election was Mr. Russell sent to Police Captain Newton and diceman Steele was sent to the church. His ar-val created a disturbance, which he quieted by reatening to arrest any one who interfered with hreatening to arrest any one who interfered with him. One of the congregation named Young became to excited during the balloting that he challenged with him. William Van Nest to go outside and fight him, a proposition which she declined. A young couple who were engaged quarrelled over their votes and "parted forever." The parting was facilitated by the pulled of the building. The latter charged the former with stuffing the ballot-box, and demanded a new tallot. The pastor finally announced that Loundes was re-elected treasurer, but said he would take the case before the courts.

The trolley electric wire of the Jersey City and Bergen-st, car line sent up a flame as large as a barrel, at Montgomery and Washington sts. Jersey City, at 4:30 p. m., yesterday, just as a cur went by. It blazed several minutes and then the wire parted at the connection. A crowd of 300 or 400 gathered and looked on and denounced the city government for allowing the introduction of the trolley system. The wire burned about twenty feet up the Washington-st. line till it parted. A few minutes later a section of about twenty feet burned in Montgomery st. and fell.

Frank Davis, a colored cook, broke into Ryan's Hotel at midnight on Tuesday with the purpose, it is believed, of stealing the valuable lewelry on the body of Mr. Ryan, which lay in the parlor. The body, however, was guarded by friends, and the thief turned his attention to the other rooms of the house, and they informed the police. Davis was caught under the stairway. One of his hands was bleeding pro-

James T. Pierson, who for several years was the blican representative in the Union County Board Republican representative in the Union County Board from Westfield Township, yesterday in the Union County Circuit Court brought a suit against the Jersey Central Railroad Company for \$80,000 damages for injuries sustained in a collision on the High Bridge branch of the road at Chester, N. J., on September 16, by which he sustained incurable injuries. Mr. Pierson was riding in a car which was hurled from the track and badly smashed. He alleges the accident was due to carelessness on the part of the company's employes. The case will be tried at the next term of the court.

DEEKSKILL.—The subject of an electric railway for Peekskill has been agitated for some time. A few weeks ago a number of capitalists met and formed the Peekskill Surface Railway Company. On Tuesday morning a messenger went to Albany and filed the articles of incorporation with the Secretary of State. From there he took a fast train to New-York; then by the Harlem road to White Plains, and at 5 p. m. filed the papers there. He was then driven to Tarrytown, and in the evening application was made to the Common Council for a franchise to build and operate a trolley road in the streets of Peekskill. It will run to Verplanck's Point, Lake Hohegan, Hill Side Cemetery, the State Camp and other points. The capital stock is \$50,000. The incorporators and principal stockholders are Clark D. Rhineiart, George E. Gillully, James M. Gifford, Edward H. Hobbs, Jesse Sterns, Edwin B. Lent, Nelson G. Foshay, William R. Thorne, George E. Briggs, Dr. P. H. Mason, Dr. E. D. M. Lyon, David 6. recently appointed to inform Mayor Boody, of Brooksurance on business buildings in that city, and the charges of inefficiency in the management of the Fire Department, has transmitted to him the full statement asked for at the recent hearing before the Mayer. The chairman of the committee, John H.

Washburn, sent to the Mayor yesterday the statement of which this is the substance:

Please bear in mind that neither the Tariff Association nor its committee occupies the position of a prosecutor nor an investigator. For purely business reasons the association raised its rates on Brooklyn property on the account stated of the inefficiency of the Fire Department. At your request a committee was appointed to confer with you on the subject, who met you, not to make charges,

Mayor Boody will appoint a committee of business men to investigate the condition of the Fire Department. The committee of the Tariff Association will co-operate with this committee.
